Credit Value: 1

INSTRUCTION TO CANDIDATES

Answer **ALL** the questions in the answer booklet provided. Use the pages provided for rough work only for that purpose. Start answering questions only in the section labelled **WRITING PAPER**.
For **Sections A** write just the **letter** corresponding to the right answer against the question number. At section **C** start each question on a **fresh page**.

SECTION A: MULTIPLE CHOICE QUESTIONS (20MARKS) 1MARK EACH X 20=20MKS

Instruction: Choose the most appropriate answer for each question.

1. Which component is responsible for executing instructions in a computer?
A. Central Processing Unit
B. Hard disk
C. Monitor
D. Keyboard
2. A computer program designed to manage hardware resources is known as:
A. Application software
B. Operating system
C. Utility software
D. Firmware
3. Which of the following is an example of input hardware?
A. Printer
B. Speaker
C. Scanner
D. Monitor
4. The primary purpose of RAM is to:
A. Store data permanently
B. Control system operations
C. Display output
D. Temporarily store data and instructions
5. Which software is used mainly for word processing?
A. Microsoft Excel
B. Adobe Photoshop

- C. Microsoft Word
- D. Google Chrome
- 6. The binary number system is based on:
 - A. 2 digits
 - B. 8 digits
 - C. 10 digits
 - D. 16 digits
- 7. Which device is used to convert hard copy documents into digital form?
 - A. Plotter
 - B. Scanner
 - C. Printer
 - D. Projector
- 8. A computer virus is best described as:
 - A. Hardware fault
 - B. A system upgrade
 - C. Malicious software
 - D. Input error
- 9. Which of the following is a standard output device?
 - A. Keyboard
 - B. Mouse
 - C. Joystick
 - D. Monitor
- 10. The main function of the motherboard is to:
 - A. Store data
 - B. Connect all computer components
 - C. Provide internet access
 - D. Display graphics
- 11. Which file extension is commonly associated with spreadsheet files?
 - A. .docx
 - B. .ppt
 - C. .xlsx
 - D. .pdf
- 12. What does the acronym ICT stand for?
 - A. International Computer Technology
 - B. Information and Communication Technology
 - C. Integrated Computing Technique
 - D. Internet Communication Tool
- 13. Which unit measures the speed of a processor?
 - A. Megabytes
 - B. Pixels
 - C. Hertz
 - D. Inches
- 14. Which of the following is an example of system software?
 - A. Antivirus program
 - B. Operating system
 - C. Web browser
 - D. Word processor
- 15. The main purpose of an antivirus program is to:
 - A. Improve graphics
 - B. Manage memory

- C. Detect and remove malware
- D. Increase processing speed
- 16. Which of the following represents secondary storage?
 - A. RAM
 - B. Cache
 - C. Registers
 - D. Hard disk
- 17. A computer network that covers a small geographical area like an office is called:
 - A. WAN
 - B. MAN
 - C. LAN
 - D. PAN
- 18. Which of the following is an example of open-source software?
 - A. Microsoft Windows
 - B. Adobe Illustrator
 - C. Linux
 - D. CorelDRAW
- 19. The process of starting a computer is referred to as:
 - A. Logging
 - B. Booting
 - C. Formatting
 - D. Installing
- 20. Which device is primarily used to produce high-quality graphical drawings?
 - A. Printer
 - B. Scanner
 - C. Monitor
 - D. Plotter

SECTION B: STRUCTURAL QUESTIONS (30MARKS)

Answer **ALL** questions.

(Each question carries 6 marks)

1. Define a computer and state its two main characteristics.
2. List and briefly explain three generations of computers.
3. State three differences between analog and digital computers.
4. Explain three ways computers have improved communication in society.
5. Define the Central Processing Unit (CPU) and explain its two main parts.
6. Identify three storage devices and state one use of each.

SECTION C: APPLICATION QUESTIONS. (50 MARKS)

Question 1 (15 marks)

- a) What is a computer? (3 marks)
- b) State five places where computers are commonly used. (5 marks)
- c) Mention four input devices and state one function of each. (7 marks)

Question 2 (15 marks)

- a) Define the following terms:
 - Computer hardware (3 marks)
 - Computer software (3 marks)
- b) Distinguish between system software and application software by giving two examples of each. (4 marks)
- c) State five disadvantages of computer misuse. (5 marks)

Question 3 (20 marks)

- a) What is Microsoft Excel used for? (4 marks)
- b) List five uses of Microsoft Excel. (5 marks)
- c) Explain five basic steps involved in creating and saving a spreadsheet in Microsoft Excel. (11 marks)
