

National Exam of Higher National Diploma-New program – 2021 Session

Spécialty/option :SWE/HWM/CWD

Paper : Digital Literacy

Duration : 2hours

Credits : 1

Instructions:

This paper contains two (02) sections. All sections are compulsory. Answer all questions neatly and clearly, label your work.

Section A: General computer Knowledge (50 marks): (This section is made up of I & II)

I. This part is made up of MCQs and contributes for **20%** of the entire paper. For each MCQs, four (04) answers are proposed and *only one* is correct. **(20 marks)**

1. The most important part of an information system is:
 - A. People
 - B. Hardware
 - C. Software
 - D. Data
2. Which of the following is an example of an Operating System?
 - A. MS DOS
 - B. MS Access
 - C. Spreadsheets
 - D. Photoshop
3. Which of the following is also known as brain of computer?
 - A. Control unit
 - B. Central Processing unit
 - C. Arithmetic and language unit
 - D. Monitor
4. Which unit is responsible for converting the data received from the user into computer understandable format?
 - A. Memory Unit
 - B. Arithmetic & Logic Unit
 - C. Input Unit
 - D. Output Unit

5. Which of the following is not a function of the Input Unit?
 - A. It reads instructions and data from the outside world.
 - B. It converts the data into computer acceptable format.
 - C. It makes the data into user understandable format.
 - D. It supplies the data and instructions to the computer for further processing.
6. The 'heart' of the processor which performs many different operations is
 - A. Arithmetic and logic unit
 - B. Motherboard
 - C. Control Unit
 - D. Memory
7. Number of bits in ALU is
 - A. 4
 - B. 8
 - C. 16
 - D. 2
8. The physical devices of a computer:
 - A. Software
 - B. Package
 - C. Hardware
 - D. System Software
9. Which of the following is designed to control the operations of a computer?
 - A. Application Software
 - B. System Software
 - C. Utility Software
 - D. User
10. Which of the following lists the different type of networks in ascending geographical area?
 - A. LAN, WAN, MAN
 - B. WAN, LAN, MAN
 - C. MAN, LAN, WAN
 - D. LAN, MAN, WAN
11. The primary difference between a LAN and a WAN is:
 - A. Number of software programs available.
 - B. Distance.
 - C. Variety of hardware devices.
 - D. Number of hardware devices.
12. In a traditional LAN, each node on the network is connected through:
 - A. Cables.
 - B. Satellites.
 - C. Microwaves.
 - D. Wireless transmission.

13. Which of the following is used to hold running program instructions?
- A. Primary Storage
 - B. Virtual Storage
 - C. Internal Storage
 - D. Minor Devices
14. Which of the following is the most essential program in a computer system?
- A. Antivirus software
 - B. Microsoft word
 - C. Microsoft publisher
 - D. Operating system
15. Which application is best suited for calculations, analysis and data presentation
- A. Word processors
 - B. Spreadsheets
 - C. Network browsers
 - D. Graphics software
16. A pre-designed document that serves as a model on which new documents can be based is known as:
- A. Template
 - B. Macro
 - C. Recycle Bin
 - D. Clipboard
17. Word processors belong to a class of software known as
- A. System software
 - B. Application software
 - C. Communication software
 - D. Malware
18. Which of the following is a popular presentation program?
- A. MS Windows
 - B. MS Access
 - C. MS PowerPoint
 - D. Adobe Illustrator
19. A collection of information that is delivered to an audience is known as:
- A. Animation
 - B. Presentation
 - C. Menu
 - D. Wildcard
20. What name is given to a type of spreadsheet that uses a computer program to manipulate, analyse and display data in rows and columns?
- A. Formula
 - B. Template
 - C. Electronic spreadsheet
 - D. Invoice

II. Structural Questions (30marks)

1. What is meant by computer 'hardware' and 'software'? Explain with examples. (5mks)
2. State two input devices and two output devices (4marks)
3. Describe what is meant by a 'peripheral'. Explain with examples. (2marks)
4. What does a CPU do? (2marks)
5. Where are all programs, including the operating system, and all your files held in a typical computer, whether or not you are using them? (2marks)
6. What is meant by a 'port'? (2marks)
7. Give four examples of the names of some ports you may find on a computer or laptop. (4marks)
8. Explain why a computer needs a hard drive. (4marks)
9. List the various computer classes (5marks)

Section B: Web and Digital Society(50 marks): This section is also made up of I & II

I. Web knowledge (24 marks)

1. Explain the role of the following components of a web application:
 - a. Browser (2 marks)
 - b. Web server (2marks)
 - c. DBMS (2marks)
 - d. Protocol (2marks)
2. URL is used to Identify each resource on the internet. What is URL? (2 marks)
3. Explain four benefits of a web application to an organization (5marks)
4. Distinguish between a static and a dynamic web site. List the programming languages used to program each of the types of websites (3marks)
5. What's a website? Distinguish between a website and a web application ((2, 4)marks)

II. Digital society: (26marks)

1. What is e-commerce? Distinguish between e-commerce and e-business (2, 4) marks
2. What do you understand by the following terms as used in computer ethics:
 - a. Unauthorized access (2marks)
 - b. Unauthorized use (2marks)
 - c. Multimedia content (2marks)
 - d. Session hijacking (2marks)
 - e. Phishing (3marks)
 - f. Scamming (3marks)

3. What additional services does e-banking systems provide to their customers 4marks
4. State three precautions to follow when creating a password and two precautions when using a password (5marks)
5. Give the full meaning of email (1mark)
